HIGHLIGHTS

- IOM has started tent replacement in Ashti IDP camp in Sulaymaniyah governorate. A total of 1,453 families will enter the winter season in new tents, proving better climatic protection, dignity and privacy. Additionally, governmental authorities have started tent replacement activities for 5 camps in critical condition in Dahuk governorate.
- Winter response has started and still ongoing. So far Cluster Partners have provided winter support to 20,896 households. Access in some targeted areas in Centre and South remains a big constraint due to the ongoing demonstration in that part of the country. Partners are closely collaborating with the Cluster, to make sure the targeted beneficiaries in those locations will be reached in a timely manner.
