HIGHLIGHTS

NEED ANALYSIS

- An estimated 18,000 people were directly affected with disruption of shelter activities due to the restrictions measures put in place to mitigate risks from COVID-19.
- Would just say 122 collective shelters assessed to identify required works to reduce crowding and improve hygiene conditions.

RESPONSE:

- **COVID-19 Response:** Shelter sector continues to map activities to understand the impact on shelter programming, accordingly updating the monthly SNFI COVID-19 impact report, and feed into the humanitarian impact of COVID-19 report.
  - The sector in cooperation updated the guidance of precautionary measures while conducting various shelter responses.
  - 21 collective shelters were rehabilitated, and 904 shelter kits were distributed to reduce overcrowding in IDPs accommodation areas.
- **TWG:** with active participation of 24 shelter partners and several rounds of the discussions, the sector finalized updating the guidelines and unit price of “Rehabilitation of Damaged Houses” response.
- **SHF:** USD4.5 M are allocated to SNFI sectors in the first standard SHF allocation. Shelter focus would be on underserved communities that have not been covered by previous allocations and funds.
- **Joint monitoring missions:** the sector with MoLAE is jointly visiting ongoing and completed shelter projects in 6 Governorates. The goal is to measure the quality of shelter projects and impact on beneficiaries.

NFI (Total)

- **Targeted:** 2.9 M
- **Reached:** 34%

Shelter (Total)

- **Targeted:** 1.2 M
- **Reached:** 15%

GAPS / CHALLENGES

- Significant fluctuation in prices and difficulty to get committed prices from contractors and suppliers hinder shelter activities, which resulted in putting long-term shelter activities on hold.
- Diminishing coping capacities of both IDPs and host communities as well as limited financial resources of government and sector partners are leading to an increase in shelter needs.
- Opportunities for systematic field-based data collection remain limited due to access restrictions, resulting in incomplete needs analysis in some areas.
