

## Yemen Shelter / NFI / CCCM Cluster Winterization Plan October 2016 – March 2017

Climate in Yemen varies greatly depending on the geographical region. During the winter season, the country experiences coolness, with frequent frost. The range of temperature can go from 22°C (72°F) during the hottest month of the winter, into below 0°C (32.0 °F) at its coldest. Rain is brought in by the southwest winds. Rainfall, which comes in irregular heavy torrents, averages 130 millimetres (5.12 in) annually.

This is new emergency appeal for the Winterization Plan for the IDPs and affected populations. It is part of the cluster efforts to put in place measures to support people of concern in order to avert the risk of humanitarian tragedy and loss of life during the winter months, particularly between October and March. Cluster's response requires coordinated efforts by partners and speedy implementation to address this situation by distributing Winter NFIs kit and Shelter assistance. Given the current numbers of people concerned and the growing humanitarian needs, more will be required to bolster the response in the affected areas during the winter months. The cluster will seek to provide people most at risk, particularly women and children, with a "winter package" composed of different items, as outlined in this document. Special arrangements are envisaged for individuals with specific needs.

### Planning assumptions

Between October 2016 and March 2017, the cluster anticipates 217,573 households in need for winter assistance and estimated 65,279 most vulnerable households (30% of the need) in need for urgent assistance. The top priority governorates are Dhamar, Amran, Sana'a, Marib, Taizz and AlJawf given the harsh weather condition (extremely cold) during the winter season and areas with the high number displaced households residing in collective centres and spontaneous settlements.

Governorate	District	HHs in need	Targeted HHs
<b>AlBayda</b>	Al A'rsh, Al Quraishyah, Na'man, Rada, Radman Al Awad, Sabah, Wald Rabi', Ar Ryashyyah and Ash Sharyah	3,405	1,021
<b>AlJawf</b>	All districts	6,610	1,985
<b>AlMahwit</b>	All districts	8,908	2,673
<b>Amanat AlAsimah</b>	All districts	25,000	7,501
<b>Amran</b>	All districts	16,966	5,093
<b>Dhamar</b>	All districts	21,634	6,490
<b>Hajjah</b>	AlJamima, Hajjah city, Washah, Mabyan, Kuhlana Affar and Al Maghrabah	8,394	2,518
<b>Ibb</b>	All districts	16,369	4,910
<b>Marib</b>	All districts	7,350	2,206
<b>Raymah</b>	All districts	7,652	2,296
<b>Saada</b>	Saada	8,086	2,427
<b>Sanaa</b>	All districts	38,002	11,399
<b>Taizz</b>	At Taziah, Sharab AlSalam, Saharab Ar Rawnah, Sabir Al Mawadim, Ash Shamayatayn, Dimnat Khadir, Al Mawasit and Jabal Habashy	49,197	14,760
<b>Grand Total (HHs)</b>		<b>217,573</b>	<b>65,279</b>

### Winterization strategy

The cluster winterization strategy focuses on the following areas of intervention in order to avert the risk of humanitarian catastrophe and loss of life:

Type of assistance	Description of the assistance	Targeted group
<b>Winter NFIs kit</b>	<p><u>Blankets (per person):</u> one high thermal single blanket or two medium thermal single blankets or one double blanket.</p> <p><u>Clothes (per person):</u>            Male: Fleece pyjama, jacket and shawl.            Female: Fleece pyjama, socks, sweater and scarf.            Children: Fleece pyjama, hat, sweater, gloves and socks.            Infant (under 2 years): Fleece infant blanket, hat, pyjama and socks.</p>	Vulnerable IDPs and affected population
<b>Shelter assistance</b>	Emergency Shelter kit per household	Vulnerable IDPs living in spontaneous settlements/open areas
	Provision of two plastic sheeting per household (It shall be used to reinforce the existing makeshift shelter if needed)	IDPs in collective centres and spontaneous settlements
	Rehabilitation of damaged houses	Returnees

### Financial requirements

A total of USD \$30,498,410 is requested for activities planned to be implemented in the affected areas during the winter season. The unit cost in the below table covers the transportation and operational related expenses.

Type of assistance	HHs targeted for assistance	Unit Cost (US\$)	Total Cost (US\$)
<b>Winter NFIs kit</b>	65,279	\$220	\$14,361,380
<b>Emergency Shelter kits</b>	19,586	\$280	\$5,484,080
<b>Plastic Sheeting</b>	13,059	\$50	\$6,529,50
<b>Rehabilitation of damaged houses</b>	5,000	\$2000	\$10,000,000
<b>Grand Total</b>			<b>\$30,498,410</b>

### Modality of distribution

Partners shall define the feasibility of implementing the abovementioned activities through cash or voucher or in-kind taking into account various factors in the targeted areas (i.e. availability of stocks in the local market, functionality of cash systems).

### General Note

Reference shall be made to the Health Cluster on the provision of mosquito nets during the winter season in hot areas which are vulnerable to malaria and / or other diseases.
