NEED ANALYSIS

According to Bangladesh government data:

- More than 8 million people have been affected,
- More than 140 people are confirmed dead,
- More than 100,000 houses have been fully damaged,
- More than 600,000 houses have been partially damaged,
- More than 300,000 people were displaced, living in temporary shelters, on embankments, or in the open.
- There has been major loss of crops, livestock, infrastructure, water sources.

RESPONSE

- Agencies are responding with NFI kits, including tarpaulins, rope, tools.
- Some agencies are focusing on shelter recovery, delivering CGI and training on construction principles, especially plinths.
- Multi-purpose cash grants, of which 18% is estimated to be spent on sheltering.

GAPS / CHALLENGES

- There are relatively few humanitarian responders to the floods.
- Funding remains weak, at around 30% of total needs.
- Emergency response and recovery for floods affected communities has been overshadowed by the Rohingya refugee crisis, also in Bangladesh.
