### Gaza Strip

Shelter Cluster partners targeted vulnerable people in quarantine facilities, inadequate shelters and home isolation by provision of non-food items (NFIs) including bedding sets, individual hygiene kits, dignity kits and family Covid-19 Hygiene Kits as disaggregated in the table below :

### Jerusalem and WB

The cluster partners targeted families in 61 herding and marginalized communities in area C with essential hygiene, disinfectant items and Covid related awareness materials to people at higher risk of being affected by the pandemic

### Items provided to quarantine centers /housing units

#### Mar to Dec 2020

	March	April	May	July	August	September	October	November	December	Grand Total
Family Hygiene Kits	5,970	11,002	27	792	1,150	900				19,841
Blankets	4,200	2,000	800		850	1,000				8,850
Mattresses	3,200	2,000	700	240	850	1,000				7,990
Pillows	2,000	2,219	1,000		1,050	1,500				7,769
Covid19 Family Hygiene Kit				2,453		3,456	610	415	718	7,652
Cleaning/Washing materials	300	3,663		70		115				4,148

### Gaza Stockpile Of NFI's

Updated by:31 Dec 2020

### Gaps, challenges and constraints

A main constraint is the lack of quality household disaggregated information on needs to accurately target interventions compounded by the movement restrictions that impede access to the most vulnerable households and communities.

The lack of accurate information about the prioritized poor families at home quarantine impede the cluster ability to provide required NFI and hygiene materials, in addition many of Bedouin and herding communities suffer from overcrowding conditions with limited partner capacities to provide quick and adequate solutions to reduce the impact of the pandemic on the family members.
