Land Administration and Management in Haiti Project (LAMP)
Why is security of tenure important?

- Stabilizing and improvement of the rights of vulnerable populations especially women.
- Support for the preservation of the environment in Haiti through land-based agro-forestry and reforestation initiatives.
- Support for NGO and private sector agricultural and economic development projects / investments where clarity about property rights can enable and improve outcomes.
- Improving access to property-related credit / financing.
- An increase in the tax base for the country which occurs when tenure security is improved.
